## WHY MANY PERSONS FAILED TO RECEIVE THE 'PANSY' SOUVENIR.

Hundreds of the many thousands of  
subscribers to the Star Independent have  
availed themselves to the Christmas offer  
to secure one of the exquisite old pictures  
entitled "A Yard of Pansies," but a num-  
ber have been disappointed in not receiv-  
ing the same. The directions were not  
carefully followed as published in the  
Star Independent of Dec. 12th. The pub-  
lisher, W. Jennings Demorest, 15 East  
Fourteenth Street, New York, who sup-  
plies the readers of the Star Independent  
with the "Pansies," has an office system  
as perfect as thirty years' experience can  
make it, and each request for the "Pansies"  
accompanied by six cents in postage and  
the name and address of the reader, was  
filled in the day it was received by M.  
Demorest. He has received a large num-  
ber of letters from our readers containing  
nothing but the clipping from this paper,  
without any name or address where "A  
Yard of Pansies" was to be sent. Where  
the full name and address is not given it  
is impossible to properly mail the souven-  
ir. Complaints from readers who have  
followed the directions and failed to  
receive one of the pictures will be attended  
to immediately if a card be sent to Mr.  
Demorest, mentioning about what date  
the order was sent. Another source of  
delay has been the over-crowding of mail  
matter in the New York Post Office, hence  
complaint should not be made until a  
due amount of time is allowed for the  
shortcomings of the postal service.

## OBITUARY.

Once more the local summons has been  
issued, and in response thereto, W. V.  
MacIver, Esq., has gone over to the great  
majority. The deceased was born near  
Brighton in the Province of Ontario, and  
when quite young began the study of law,  
first in Toronto and afterwards under  
articles to Sheriff Benson (now of Regina)  
then practicing at Brighton, at which  
place he received a call to the bar. In  
the summer of 1869 the deceased came to  
Prince Albert and began the practice of  
his profession, he being the pioneer law-  
yer of the District - and successfully  
labored, making for himself numerous  
friends. He was the first Crown Pro-  
secutor appointed and for a number of years  
was town solicitor and, in several cases  
for which he acted in the above capacity,  
displayed great ability. His death, coming  
so sudden and at the early age of 42,  
was a great shock to his many friends.  
During his illness the Forsters, of which  
body he was a member, carefully attended  
to him and the last rites were per-  
formed by them. They turned out "in  
mourning" and marched in procession from  
the hall to the residence of the deceased  
brother, from there to St. Alban's church,  
where the funeral services were read by the  
rector of the parish, Ven. Archdeacon  
Geo. McKay. From there to St. Mary's  
church yard followed also by all the town  
people, and in that quiet resting place all  
that was mortal of him who was so well  
known was laid to rest. Our sympathies  
are extended to his wife and child, who  
have lost a kind husband and father.

## BORDERING ON CONSUMPTION.

When a cold is neglected it frequently  
develops a condition leading to con-  
sumption. No other remedy will so  
quickly relieve and cure cases of this  
dangerous kind as Dr. Wills' Norway  
Pine Syrup, because no other remedy  
possesses such perfect curative powers as  
does this price of pectoral remedies.

## THE GIRLS' POLY.

A Successful Working Women's Club is  
the Girls' Poly.

Perhaps the most complete, and prac-  
tically successful working girls' club  
that has yet been organized, says Ser-  
pentine's Magazine, is one that has been  
provided through the generosity of a  
good man and his devoted wife. It is a  
London, at the West End, in Lanchester  
place, just beyond Regent's street, and is  
the well-known Lanchester hotel. It is  
commonly known as the "Girls' Poly,"  
to distinguish it from an institution  
with which it is closely allied, the Young  
Men's Polytechnic Institute, which is  
universally known among young peo-  
ple in London as the "Poly." The  
more precise name of the club in ques-  
tion is the Young Women's Institute.  
The fees for institute membership are  
very small - eighteen pence per quarter  
or five shillings (\$12.50) per annum. This  
establishment is open to all its parts for  
the benefit of the members from 6.30 to  
10 o'clock in the evening. The mem-  
bership fee gives free use of sitting  
rooms, library, reading and music  
rooms, game-rooms, recreation grounds  
and numerous other advantages, and  
also entitles the fortunate young wom-  
en to admission at low tuition rates to  
an immense range of classes and enter-  
tainments. The purely club features  
of the place are highly prized by the  
girls. It is no small thing for them to  
have a bright, cheerful playground, and  
that they regard as their own, where  
they may resort in the evenings, and in  
connection with which they have access  
to so much that is diverting and in-  
structive. It is needless to emphasize  
the importance of such a privilege to  
anyone who knows how the average  
young workwomen and women of our  
great cities are obliged to live. In the  
refreshment rooms the member may  
procure her cup of tea and light lunch,  
at a cost decidedly less than elsewhere,  
and for a year or more past there has  
been served in the spacious dining-  
room an excellent and substantial din-  
ner, in courses, at sixpence. For four-  
pence a very good but less bountiful  
dinner may be had by the more econ-  
omical young women of business.  
These privileges are, of course, limited  
to members. The institute dining-  
rooms are vastly more pleasant than  
the cheap restaurants or lunch-rooms  
to which the girls might otherwise be  
compelled to resort, and the food at the  
institute is incomparably better in  
quality and cheaper in price. All the  
influence of the place are homelike,  
wholesome and improving. There  
seems to be a tacit understanding  
among the young women who meet in  
these agreeable quarters that they must  
be on their best behavior - must "div-  
up to their blue china," so to speak.

## THIS WORLD OF OURS.

The Persians have a different name  
for every day in the month.

It is stated that in some of the Eng-  
lish agricultural districts the population  
has decreased forty per cent since the  
last census.

All the chickens in the western part  
of French Guinea are perfectly white.  
It is impossible to find one with a col-  
ored feather.

It is claimed that in the vicinity of  
Mildura, Victoria, Australia, one man  
can attend to five acres of poppy plants,  
and that the yields with proper care,  
should be \$1,000.

The city of Hangchow has in the last  
decade added thirty-four per cent. to its  
inhabitants, till they number above 190,  
000, or nearly as many as the old Bur-  
mese capital of Mandalay.

A new series of postage stamps has  
issued by the public of San Salvador.  
All stamps previous to 1892 have been  
called in, and only the new stamps will  
be accepted in payment of postage here-  
after.

## BY-LAW WITHDRAWN.

The by-law which appeared in this paper for the purpose of granting a bonus of \$1,000 to the erection of a first class Roller Process Flour Mill has been withdrawn by the present Council, but will appear in our next issue. The matter will not take place on the 26th inst. but on a later date. There is a party who has already signified his intention of taking hold of the mill and pushing it ahead should the bonus be carried. What is bringing 34 cents a bushel, and is likely to go much higher. Now the farmers are offered 43 cents a bushel by local shippers. It is time for the people to wake up to their own interests. A first class Roller Process Flour Mill here will be the means of keeping thousands of dollars in Prince Albert that is weekly being sent east for flour.

## SUPERINTENDENT OF EDUCATION.

The action taken by the Executive Committee in the appointment of the clerk of the different Boards of Education as Superintendent of Education cannot but be deeply resented by every true friend of education in the North West. It was fully believed that in this appointment no regard would be had for the wishes of the teachers in the appointment of a thoroughly practical educationist as the head of our educational system. The *Regina Standard* deserves credit for the decided stand it has always taken on Territorial appointment and especially any that would effect the true interest and advancement of our Education system. Some few weeks ago under the appropriate heading, "Wanted, A Head," *The Standard* said: "It must be quite patent to any who have given the subject due consideration, that the Educational system of the Territories is suffering from the want of a practical head." Quite correct, just what was wanted, and what all who are interested in our educational welfare expected we would get, but alas, "there's many a slip between the cup and the lip." The management of the educational affairs of the North West have gone from worse to worse, but the last act of the drama is the most lamentable one that has been enacted in the whole educational face in the Territories.

The Superintendent of Education should be a leading educationist, one whom teachers could look up to with respect and confidence, who is not inferior to the very best teachers in educational attainments, and who has won his honorable position from his success as a practical and successful teacher, and not an ordinary clerk, as has been fixed upon this country.

The appointment is a most absurd and ridiculous one and should be condemned by every right minded person in the Territories. Instead of Mr. Haultain and his colleagues securing the best available educational man they could get for such an important position, they have placed the old Board of defunct fossils in power, as their secretary was in reality the moving spirit of that body that so long mismanaged the educational affairs of the North West. In this appointment, has the interests of education been considered? Has Haultain and his colleagues carried out his promise through *The Standard* to recognize the rights of teachers in future? If it is important that the Inspectors of Schools should be taken from the ranks of the teaching profession, is it not equally as important that the Superintendent of Education, the head of our whole educational system, should be a thorough practical educationist, and not a mere figure head? Mr. Haultain had an opportunity of distinguishing himself as a friend of education by appointing a man worthy of the honor as Superintendent of Education for the North West. It is a great pity that the appointments of some men who are rested with a little

power, should favor more of favoritism than the general welfare of the country, but such seems to characterize the management of affairs at Regina. It is a pity that every day of honor should have been cut asunder in this appointment.

There is a wheel within a wheel, or the changes in School books and the acquisition of the McMillan copy book, would never have been tolerated.

When the Government of Manitoba took charge of the education of all the of that province, and created the Post office of Minister of Education, Mr. E. A. Garrett, one of the most successful public school teachers of the city of Winnipeg, was made Deputy Minister of Education and ever since has been retained in that position, thus bringing to the aid of that department the experience of a practical and successful teacher. If the system of favoritism that has been going on at Regina, continues, the sooner the people of Saskatchewan seek redress by separation and the erection of this district into a separate province the better, and this matter we feel in duty bound to ventilate.

## GIVEN AN OPTION.

The following which appeared in the *Winnipeg Tribune* will no doubt be news to many of the people of Prince Albert.

"The people of Prince Albert are desirous of a change in the train service of that northern point, more particularly in respect to the days on which trains arrive and depart. At the present time trains arrive there on Tuesday's and Saturday's, leaving for the south on Monday's and Thursday's. The railway authorities have offered an option, and on the people of Prince Albert signifying their acceptance of the change, trains will leave Regina on Monday's and Thursday's, reaching the northern terminus in the evening, and returning on Wednesday's and Saturday's."

The Council of 1890 approached the railway authorities of the C.P.R. asking the Company to make some improvement at the station for the convenience and safety of the public, and also a change in the arrival and departure of the train. Certain promises were made by the railway authorities, but were never carried out, although the Town Council did its part of the agreement. The option offered by the railway company may have been received by some private citizens, but as yet no such offer has been made through the Town Council or the Board of Trade, so that the offer made to the Town Council will be news to very many, and the change there is no doubt would be quite acceptable to the business men of the town, as a great many have to do considerable amount of business correspondence on Sunday on account of one of the trains arriving late on Saturday night, and leaving early on the following Monday morning.

On Thursday last an alarm of fire caused considerable excitement in the town. On enquiry, the fire was at once located in Conn. McLeod's storehouse. By the exertions of No. 1 fire company and the citizens, who were promptly on hand, the fire was soon under control and extinguished. The damage done, however, amounts to over \$200. Fortunately, there was no wind at the time and the flames discovered early, or there is no knowing where they might have ended. Such narrow escapes as these bring the question of fire protection nearer home, but we greatly fear the providing of such will be postponed till the day comes whereof "I told you so."

We desire to call attention to the Great Winter Competition of 1892, which is now being conducted by the Canadian Agricultural and Home Journal, published at Peterborough, Canada. The Agriculturalist has gained a reputation in the past for fair dealing in connection with these competitions, and the future will be no exception of the rule. Those who care to compete can do so free of charge. All they have to do is to prepare a list of English words made from the letters in the two words, "Columbian Exposition." The rules are that no letter can be used oftener than it appears in the two words above named, or can the names of persons or places be used. Foreign words are also barred. The leading prizes are: 1st, \$2,500; 2nd, \$1,000; 3rd, \$500; 4th, \$250; 5th, \$100; besides pianos, organs, gold watches, 5,000 elegant silver tea services, etc., making a total of over 10,000 splendid prizes. All who send in 100 correct words will receive a special prize. Take a few sheets of paper, prepare a list of words made up from the letters in the two words above quoted, and enclose \$1 for six months subscription to one of the choicest and best publications on the continent, and you will have a really first class magazine to read, and may secure \$2,500 in gold into the bargain. The Agriculturalist always carries out its promises to the very letter, as the following, from Lord Kilcourse, the Governor General's Secretary, will testify.
